RELEVANT PROFESSIONAL EXPERIENCE

Keybridge Washington, DC
Director 2011 – Present

Serves as economic and policy advisor to government agencies, industry associations, and non-profit organizations, specializing in the hazard mitigation and resilience fields. Leads a team of researchers to conduct statistical analysis, experimental economics, and program evaluation. Designs policy mechanisms and analytical frameworks to solve resilience challenges, and provides senior-level briefings and communications support.

NYC Department of Citywide Administrative Services New York, NY
Environmental Defense Fund Consultant 2016

Assessed green leasing best practices for the NYC commercial building sector and identified \$3.5 million of annual energy savings for the municipality. Developed white paper outlining recommendations and presented findings to DCAS Commissioner and Mayor's Office of Sustainability.

Global Island Partnership Washington, DC
Graduate Fellow 2015-2016

Assessed implementation of sustainable development strategies in small island states. Conducted in-field research and engaged with government envoys to mobilize political support for sustainable development policies. Hosted public presentation of findings and expert panel discussion.
