## RELEVANT PROFESSIONAL EXPERIENCE

---

<b>Keybridge</b> Vice President	Washington, DC 2011 – Present
------------------------------------	----------------------------------

Conducts economic and policy analysis for small businesses, industry associations, and government agencies. Provides expertise in economics, data analytics, and program evaluation on a wide range of public policy issues, including macroeconomic policy, federal regulatory policy, environmental policy, immigration, flood insurance and hazard mitigation, equipment finance, and credit and debit card markets. Experienced practitioner of various qualitative and quantitative analysis methods, including macroeconomic forecasting, econometric and statistical modeling, geospatial analysis, environmental scanning, logic modeling, program evaluation, survey design and execution, and decision analysis.

<b>U.S. Government Accountability Office</b> Senior Analyst	Washington, DC 2007 – 2011
----------------------------------------------------------------	-------------------------------

Audited federal government programs on a variety of topics, including homeland security, emergency preparedness, food safety, and pandemic influenza. Developed project methodologies, analyzed data, and evaluated interagency coordination and program performance. Led interviews with government officials and relevant stakeholders, and used qualitative and quantitative methods to analyze transportation security inspection programs.
